Use-Case Name: 8.0 – Write Review or Rating

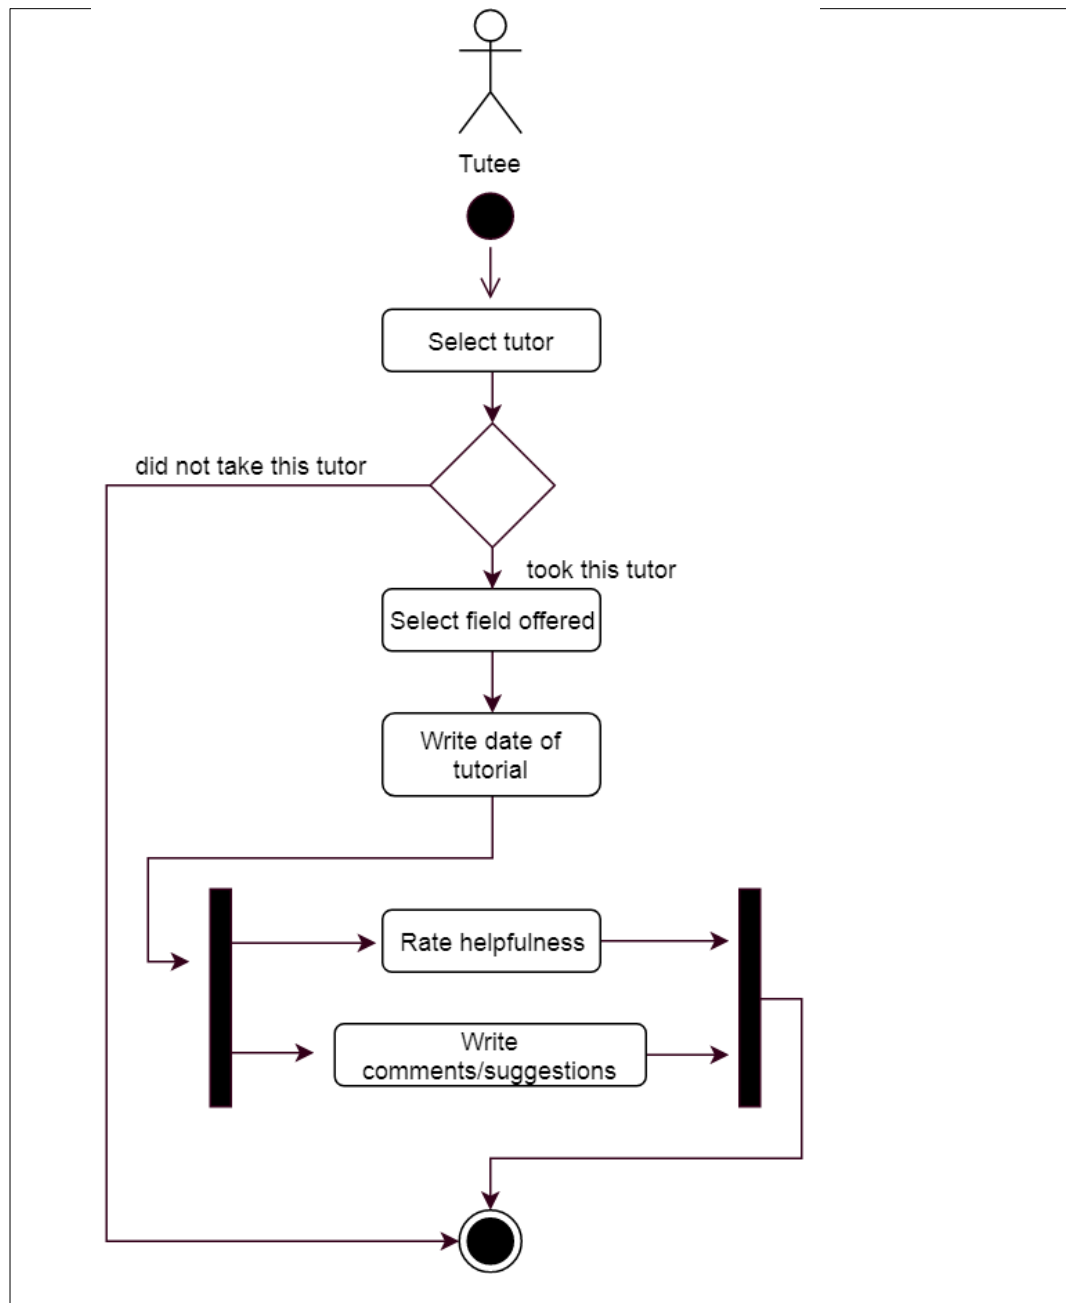

Description: The use case allows the user to write a review of their chosen tutor. The user can only write a review when the tutorial schedule has been accepted by both tutor and tutee. The tutee will specify the field their tutor offered them, rate their helpfulness, and add comments/suggestions for their tutor.

Preconditions: Logged in. Tutorial schedule accepted.

Flow of Events:

Scenario Name	Description
Scenario 1 (Basic Flow) Tutee got a tutorial from selected tutor.	1. User visits profile of their tutor. 2. User selects 'Write review.' 3. User specifies the field offered by their tutor. 4. User specifies the date of their tutorial. 5. User rates their helpfulness. 6. User writes comments on their tutor or suggestions. 7. User submits review.
Scenario 2 Tutee did not get a tutorial from selected tutor.	1. User visits profile of a tutor that didn't give them a tutorial. 2. No 'write review' found.
